

On the farm we have lots of different animals:

Our dairy cows are Friesian . Count them when you visit us!

We call cattle “calves” until they are about six months old.

Heifers are 6-24 months old

We also have pigs...

and rabbits

We also used to have sheep, but since 2017 there are none on the farm.

We also have chickens and hens. They sleep in the barn...

They are outside during the day. They like the dung heap where they can find worms.

There are also cats and dogs on the farm:

"Rocky"

"Lila"

"Scot"

[Did you see](#) any cats and dogs on our farm?
